

# Engineering Connections

## Labour Market Access and Job Search Program for Internationally-Trained Engineers

### Free 6-Week Online Program

This program supports you to enhance your knowledge of Canadian Engineering sector, local labour market and sector-specific codes and standards. Participants also learn job search skills that support their entry into the engineering field, commensurate with their skills and education.

#### Program Components Include:

- Introduction to Ontario Building Codes, Health and Safety Codes, Basics of Supervision, Ethics and Law for Engineers, LEED and MS Project review
- PEO licensing process
- Resume writing, interview preparation, cold calling, social media job search, labour market research, Canadian workplace culture and others
- Support with job search and employer connections
- Access to professional networking event
- Full-time student status with Seneca College for 4 months

#### Next Program Date:

**September 27-November 5, 2021  
(online)**

#### Registration:
